

## **Practicing Law Institute—Environmental Regulation in Practice 2021: New Challenges and Priorities**

Stacey Bosshardt was a panelist speaking on the subject of "Climate Change and the Biden Energy Agenda". During the discussion, she and her fellow panelists spoke on Biden's ambitious emission reduction goals and its implications; offshore wind energy; incidental takings of birds and other wildlife; use of federal lands for energy production; methane regulation initiatives; regulation of power plants under the clean air act, and emission standards for cars and trucks.
