

Perkins Coie Shortlisted for Chambers 2021 Environment Law Firm of the Year Award

SEATTLE (March 19, 2021)—Perkins Coie is pleased to announce that it has been shortlisted for "Environment Law Firm of the Year" at the upcoming 2021 *Chambers USA* Awards. To be ranked and shortlisted for a *Chambers* award indicates that a law firm and its attorneys are among the best in their field.

The award nominations are the result of interviews and extensive research by *Chambers'* researchers who assess a law firm's achievements, including outstanding work, excellence in client service and strategic growth.

"We are excited to be shortlisted by *Chambers USA* as we continue to strategically grow the Environment & Natural Resources (EER) practice," said Karen McGaffey, chair of Perkins Coie's EER practice. "We have added several impressive lawyers to our team over the past 12 months, and continue to grow our nationally prominent project development, renewable energy, and environmental regulatory and litigation practices."

Perkins Coie has previously been named the *U.S. News - Best Lawyers*® "Law Firm of the Year" in Natural Resources Law in 2021, 2019 and 2017 and Environmental Litigation "Law Firm of the Year" in 2020.

Perkins Coie's Environment & Natural Resources practice includes more than 100 attorneys in offices across the United States. The practice includes five fellows of the American College of Environmental Lawyers and dozens of attorneys recognized by *Chambers*, *Best Lawyers*, *Super Lawyers*, and the *International Who's Who of Environmental Lawyers*.

Perkins Coie is a leading global law firm, dedicated to helping the world's most innovative companies solve the legal and business challenges of tomorrow. Learn about our work and values [here](#).
