

Jessica Kaiser Mentioned in Multiple Publications Regarding Joining Perkins Coie

Jessica Kaiser was mentioned in multiple publications regarding joining Perkins Coie's intellectual property and patent litigation practices.

Kaiser told Law360 on Monday that she mostly worked on cases involving electrical and computer patents as a judge and an attorney, so she was attracted to Perkins Coie's robust list of clients in the tech industry, as well as the firm's strong PTAB practice group. "I saw a synergy for my experience to be able to further bolster and grow that practice," she said. (*Law360*)
