Podcasts January 18, 2022 A Fantastic Voyage With Ingestible Robots

In this episode, Michael Glenn and Colin Fowler talk with Torrey Smith and James Erd, creators of the Endiatx PillBot, a remote-operated multivitamin-sized diagnostic robot that, once ingested, navigates around within the patient's GI tract to capture medical data. Torrey and James discuss their passion for invention, failure as a source of inspiration, and turning problems into opportunities.
