

Perkins Coie published the fourth edition of *Labor Law Today—Year in Review*, offering a summary of the past year's most noteworthy and influential developments in traditional labor law. It was anticipated that the aggressive employee-friendly actions from the National Labor Relations Board (NLRB) and the general counsel that we saw in 2022 would continue into 2023. So far, that has been the case along with many more new developments. Listen to learn more about these developments, the surprises that we've seen already seen, and a glimpse into what the future of labor law may hold.
