

Join us on *The Tech Law Hangout* as we dive into the misconceptions surrounding software patentability. Host Jordan Becker sheds light on why this topic continues to ignite passionate discussions among innovators and businesses. Plus, we explore the intriguing realm of "patent subject matter eligibility" and uncover which types of software have a higher chance of gaining approval from the U.S. Patent and Trademark Office (USPTO). Don't miss an episode packed with insights and revelations.

"Software is patentable; it's just a question of certain kinds of software being more difficult than others to patent." - Jordan Becker
