## Working-From-Home (WFH) Compliance During COVID-19 Webinar

Perkins Coie invited <u>Honcho</u>, an innovative company whose software keeps companies safe by detecting and preventing damaging communications at work *ahead of time*, to help share perspectives and best practices from their customers on how to navigate the new environment. Because they've been remote since inception, they understand these challenges innately.

Working-From-Home Compliance During COVID-19 is the first webinar of a series offered by the firm.

Hear from two Perkins Coie attorneys with diverse legal perspectives, along with Anish Parikh, CEO of Honcho.
