Perkins Coie's Privacy & Security practice maintains this comprehensive chart of state laws regarding security breach notification. The chart is for informational purposes only and is intended as an aid in understanding each state's sometimes unique security breach notification requirements. Lawyers, compliance professionals, and business owners have told us that the chart has been helpful when preparing for and responding to data breaches. We hope that you find it useful as well.

Security Breach Definition. The unauthorized acquisition of data in electronic form containing sensitive personally identifying information.

- Good-faith acquisition of sensitive personally identifying information by an employee or agent of an Entity is not a security breach, provided that the information is not used for a purpose unrelated to the business or subject to further unauthorized use.
- A security breach also does not include the release of a public record not otherwise subject to confidentiality or nondisclosure requirements, nor does it include any lawful, investigative, protective, or intelligence activity of a law enforcement or intelligence agency of the state, or a political subdivision of the state.

Notification Obligation. Notice is required to affected AL residents if the Entity determines that, as a result of a breach of security, personal information has been acquired by an unauthorized person and is reasonably likely to cause substantial harm.

Notification to Consumer Reporting Agencies. If an Entity is required to notify more than 1,000 AL residents of a breach, the Entity shall also notify without unreasonable delay all nationwide consumer credit reporting agencies of the timing, distribution, and content of the notices to AL residents.

Attorney General/Agency Notification. If the number of individuals requiring notice exceeds 1,000, the Entity must notify the Attorney General as expeditiously as possible and without unreasonable delay, and within 45 days once it is determined that a breach has occurred and is reasonably likely to cause substantial harm to affected individuals. Written notice must include:

- A synopsis of the events surrounding the breach
- The number of affected individuals in AL.
- Any services related to the breach being offered or scheduled to be offered, without charge, by the Entity to individuals, and instructions as to how to use such services.

Third-Party Data Notification. Any third-party agent shall disclose to the Entity for which the information is maintained, any breach of the security of the system as soon as practicable, but no later than 10 days following the determination of the breach or reason to believe the breach occurred. Upon receiving notice from a third-party agent, the Entity shall provide notices to the Attorney General and affected individuals. A third-party agent must provide the Entity with all information that the Entity needs to comply with notice requirements. A third-party agent may contract with the Entity whereby the third-party agent agrees to handle required notifications.

Timing of Notification. Notice shall be made as expeditiously as possible and without unreasonable delay, taking into account the time necessary to conduct an investigation, and within 45 days of discovering that a breach has occurred and is reasonably likely to cause substantial harm to affected individuals.

Personal Information Definition. An AL resident's first name or first initial and last name, in combination with one or more of the following data elements:

Personal information does not include information about an individual that is lawfully made public by a federal, state, or local government record or widely distributed media.

Personal Information does not include information that is truncated, encrypted or otherwise rendered unusable, unless the encryption key or other credential necessary to render the information usable has also been compromised.

Notice Required. Notice may be provided by one of the following methods:

- Written notice; or

For online account credentials. If the breach involves only online account credentials and no other PI, the Entity may comply with this section by providing the notification in an electronic or other form that directs the individual whose PI has been breached to promptly change their password and security question or answer, as applicable, or to take other steps that are appropriate to protect the online account and all other online accounts for which the individual uses the same username and email address and password or security question or answer.

For email account credentials. For the breach of credentials to an email account furnished by the Entity, the Entity may comply with this section by providing notification by another method described in this subsection or by providing clear and conspicuous notification delivered to the individual online when connected to the online account from an IP address or online location from which the Entity knows the individual customarily accesses the account.

The Entity satisfies the notification requirement with regard to the individual's account with the person by requiring the individual to reset their password or security question and answer for that account, if the person also notifies the individual to change the same password or security question and answer for all other online accounts for which the individual uses the same username or email address and password or security question or answer.

Substitute Notice Available. - **Own Notification Policy.** Any Entity that maintains its own notification procedures as part of an information security policy for the treatment of PI and is otherwise consistent with the timing requirements of the statute shall be deemed to be in compliance with the notification requirements of the statute if the Entity notifies affected persons in accordance with its policies.

Other Key Provisions:

- **Delay for Law Enforcement.** Notice may be delayed if a law enforcement agency determines that the notice will impede a criminal investigation. Notice required by the statute must be made within 45 days after the law enforcement agency determines that notification will no longer impede the investigation.
- **Attorney General Enforcement.** A knowing and willful violation of this section is an unlawful practice pursuant to ARS 44-1522. The Attorney General may impose a civil penalty for a violation of this article not to exceed the lesser of \$10,000 per affected individual or the total amount of economic loss sustained by affected individuals, but the maximum civil penalty from a breach or series of related breaches may not exceed \$500,000.
